GARBER

Sept. 28

With the ideal weather of the last few days, work in all lines is progressing very fast, although there is a lack of help on the farms, yet the farmers are doing their best to keep up.

Sorghum making is claiming a great deal of attention, and Karo syrup will not be in demand as it has been the last few years.

With the abundance of all kinds of feed being put up for winter use, the inbound shipment of feed will not be like it has been the last few years, and why, may we not ask, can not this be done every year, more crops produced at home and less shipping in done, both as a matter of convenience, and greater economy to our farmers and in fact every body, except the commission men.

With the coming of decent roads to haul over our country can become one of the best in the west, and the tourists will not ask the oft repeated question "What do you live on in these hills?"

More canning factories! more cotton fields! more and better dairy stock, and our future is made.

Mrs. Chas. Bonsteel of Branson came up last Friday and spent the night with her husband and son at the saw mill, returning home next day.

The Irma school is still without a teacher but Miss Hazel Cathel will take the Flagg school.

The early morning and evening passenger has been annulled and we are dependent on the old regular mail train, but we can stand that for we can now enjoy our morning nap so much.

Just north of here many of the farmers have turned their attention to raising tomatoes, and we understand that many of them are getting from \$100 to \$150, per acre out of their land and our hills are now known to produce the best flavored tomatoes in all the western country. Thousands of acres are laying out infested with ticks, and covered with brush that can be easily brought in cultivation for tomatoes. Further more, Mr. Andrew Pickett and W. T. Powell have each a fine bunch

of cotton on their farms, that will even with the decline in the price of that necessity, bring them a handsome sum. If a few can make these things pay, why not more engage in the business? What we need is more to ship out and less to ship in. It is all the same to the rail roads which way we ship.

Leonard Jones is having shipped in from his father in Oklahoma 100 bushels of oats, for feed and seed.

Chas. Butler has had his household goods shipped in and will go to house keeping west of here.

Eften Fronaberger and Font Holderby are busy baling their alfalfa and storing the crop away. Eften thinks of going west to grow up with the country for awhile at least, but it looks like he is leaving the good alfalfa fields just when they are beginning to pay.

We are in hearing of the blasting on the Boston road where they are completing the work as fast as they get teams and men to perform the work.

BLUFF

Sept. 21.

We are having nice weather and corn cutting is the greatest demand.

Mr. and Mrs. I. Key Terry from Okla., have been visiting home folks.

Tep Keithley made a business trip to Poncie Saturday.

E. C. Pope died at his home Friday and was laid to rest in the Walnut Shade cemetery Saturday.

Mr. and Mrs. G. W. Clevenger Mr. and Mrs. Capps and Mrs. E. G. Glover and family spent Sunday at the Sportsman home.

Every body is busy making sorghum and as sugar is falling sorghum will to.

Dora Sportsman spent Monday with her brother Will.

Chester Blansit who has been in K. C. for some time is home again.

Grandma McChugh doesn't seem to be improving very fast.

MILDRED

September 23.

We are having some real hot weather again.

Wm. Melton and wife from Riverview visited W. S. Jeffrey Saturday night and Sunday.

Quite a number of people from this place who went to the conference at Springfield have returned. They report a good time.

The meetings at Mount Olive continue to be well attended. Rev. Turnbull has turned the meeting over to Rev. Moreland and others.

George Edwards and Jess Cobb are at Powersite working on the dam.

CEDAR GROVE

Sept. 28

Miss Zula Clements visited with her parents at Swan Friday.

Mr. Wish Keithley returned Friday from a visit with his mother.

Cloney Johnson left the last of the week for California.

Born, to Mr. and Mrs. Bernard Bird, a girl. Mrs. Everett is taking care of mother and daughter.

Mrs. McVey is home for a few days.

Barton Everett commenced his school at Riverview last Monday. Several pupils of that district who have been attending our school have enrolled in their own school.

There will be a pie social at the school house in the near future. Watch for the date.

We now have a good road to Forsyth. Some are so much encouraged they are talking of buying a car.

Report for 2nd month of school.

No. enrolled 23
